## MT310 Mouse Trap

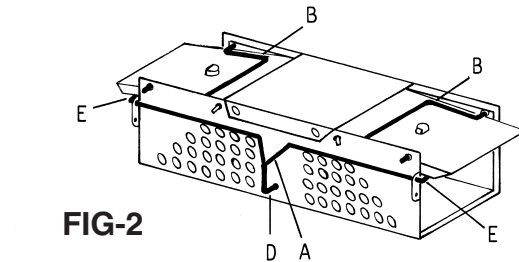

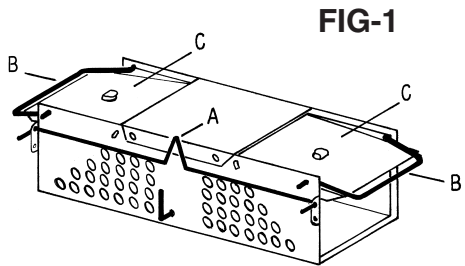

### Instructions for Setting the MT310 Mouse Trap

1.) Set trap on a flat surface.

2.) Raise trip wire (fig. 1A) as shown.

3.) Turn door locks (fig. 1B) to outward position.

4.) With both hands, lift doors (fig. 1C) to upper position.

5.) With doors in upper position, lower trip wire as shown. (fig. 2A) Make sure trip wire ends (fig. 2E) are under doors.

6.) Center the trip wire (fig. 2A) to the inside of the trigger wire. (fig. 2D) Now carefully turn the door locks (fig. 2B) to the inward position. The trap is now set.
