

# NESTING BOX

**Provides a dry, clean and dark area for hens to lay eggs**

- Space-saving modular layout – can mount vertically or side by side
- Easy to mount and remove for cleaning
- Mounts to 16" on center studs
- Made of high-density polyethylene that is easy to clean and will not rust, rot or corrode
- Sloped roof prevents undesired roosting
- Ventilation holes for fresh air
- Perch gives hens a place to land before entering nest
- Perch is pre-installed and secured for shipping – simply flips down into place for use by end consumer
- **Compare to metal units:**
  - ✓ Does not get as cold in winter months
  - ✓ As easy to clean
  - ✓ Less expensive

*Hang three units vertically and fit within recommended guidelines - first unit should be mounted 24" off the ground to protect from predators. Top unit will be low enough from ceiling to prevent roosting.*

Official FFA® Licensed Product

*Raised panel in front keeps bedding and eggs from being pushed out*

*Slightly sloped floor allows water to drain through weep hole in back*

**Merchandising Options**  
*Can be placed on shelf or hung on peg hooks*

 **MADE IN THE USA**
